

Exam: AzE (Feb - 2023) – 09.04.2023

Rules

- Be sure to follow exactly the **IP addresses, resource names, file names, etc.** as requested in the tasks
- Tasks execution order should not be derived from the order in which they are listed below
- There are tasks that depend on the successful completion of one or more other tasks
- All resources must be created in **one region** (it can be any, for example **West Europe**)
- For this exam try to use the smallest and cheapest possible resource option that will do the job
- You are free to setup public IP addresses or other additional options to virtual machines or other resources for debugging purposes
- **The aim is** not to build a production-ready solution but a **working one**

Goal
